

IOSH Managing Safely training is considered the number one health and safety course for employees in any sector worldwide.

BCarms' in-house trainers can provide you with a greater understanding of safety issues relevant to your business's specific needs. As well as helping you improve employee productivity and identify potential hazards in the workplace, it enables you to develop risk assessments that will make a difference in the overall safety culture across your organisation.

What are the benefits of BCarm IOSH training?

Training relevant to your business. Our trainers will create a bespoke training programme that targets your business's health and safety issues.

Flexibility to take the course wherever and whenever suits you – the programme can be delivered at a place, time, and date convenient to you.

Globally-recognised and respected certificated training. Successful delegates are awarded an IOSH Managing Safely certificate as proof of qualification.

Efficient and effective learning - health, safety, and environmental basics are covered in a single programme.

Who Managing Safely is for?

This unique course is for any employee, in any sector and any organisation. Designed and quality-assured by the Chartered body for safety and health professionals, the course will get your staff up to speed on practical actions and give them the confidence to manage health and safety within their teams.

What's covered?

1. Introducing Managing Safely
2. Assessing risks
3. Controlling risks
4. Understanding responsibilities
5. Understanding hazards
6. Investigating incidents
7. Measuring performance

How is training delivered?

This course (min. 22 hours in-person training) can provide a greater understanding of health and safety issues and enables you to develop risk assessments relevant to your business's specific needs.

The high impact content is broken down into easy to follow modules using memorable thought-provoking case studies and facts, clear examples, and recognisable scenarios. We use fun quizzes and discussions to make the training enjoyable and interactive and useful summaries to reinforce key points.

Overall benefits to your business include:

1. Greater productivity with fewer hours lost to sickness and accidents.
2. Improved organisation-wide safety awareness culture and appreciation of safety measures.
3. Active staff involvement in improving the workplace.
4. Globally-recognised and respected certificated training.
5. Enhanced reputation and credibility within your supply chain.

How to book training
